Forecast for Monday 10 Jun 2024

Weather: Cloudy with outbreaks of rain, locally heavy at times, overnight. Rain will clear away southeastwards by dawn, with brighter skies developing through Monday morning. However, there are likely to be a few well-scattered light showers into the afternoon, although most places should escape largely dry with sunny spells. Dry with lengthy sunny/clear spells into the evening.

Chance of cloud-free hill tops above 600m: 10% during the early morning, lifting above the summits by mid-morning.

Low cloud and visibility: Cloud bases are likely to be down to 200-300m in heavy rain overnight and early morning, with poor visibility. Cloud bases lifting above the summit by mid-morning as the rain clears, with visibility improving to very good, with distant hills becoming more visible as the afternoon progresses.

Meteorologist's View

Suitable footwear and clothing will be required first thing, as walkways maybe waterlogged and slippery underfoot after overnight rainfall. UV levels are expected to be high. Feeling cold on the summits. Suitable layers recommended, as well as appropriate sun protection.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sat 08 Jun 2024	0.2mm	0.4mm	0.4mm

Forecast for Tuesday 11 Jun 2024

Weather: Dry with clear skies overnight and turning locally chilly in some sheltered low-lying rural spots, such as valleys. Dry with sunny spells during the morning, although cloud amounts increasing through the day, with sunny spells becoming more limited. Chance of a few well-scattered light showers during the afternoon, although most places will escape largely dry throughout. Staying dry with the cloud dispersing to give some late sunshine/or clear skies by the evening period.

Maximum wind: Northwesterly 15-20mph, gusting 25-30mph on the summits.

Chance of cloud-free hill tops above 600m: 95% throughout.

Low cloud and visibility: Cloud bases will remain above the summits throughout the day. Visibility will be very good throughout, with distant hills clearly visible.

Temperature: **Valleys:** Plus 05 Celsius, becoming Plus 12 Celsius.
At 600m: Plus 02 Celsius, becoming Plus 7 Celsius.
Freezing level: Above the summits.
